Our Process

1. Children are identified in 5th grade.

2. Core staff performs a home visit and parents complete a needs-based assessment which informs an individualized success plan for each family.

3. New Scholars are on-boarded and start 6th grade programming.

4. Scholars work on literacy, math skills, and character education in middle school.

5. Scholars enter high school and focus on career exploration, college readiness, and character/leadership development.

6. Scholars graduate from high school and join Core’s alumni network.
